EnviroHoard GOLIATH™

## UK's First Net Zero Verified Hoarding System

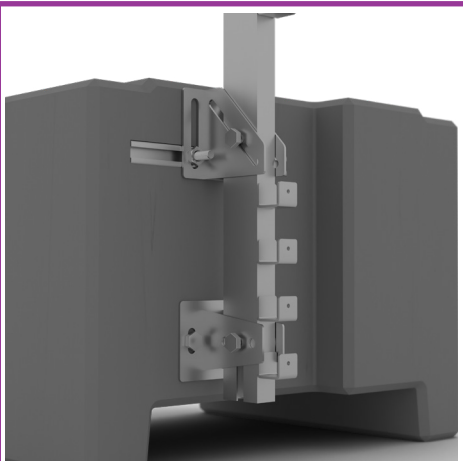

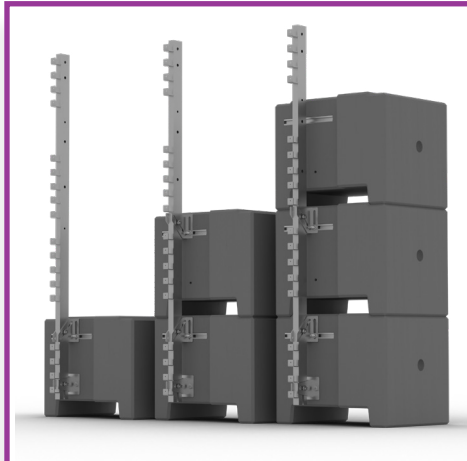

PANTHERA™ GROUP

Want to know more?

GOLIATH™ is the 3.6m high option from the multiple award winning EnviroHoard™ range. EnviroHoard™ is the first hoarding system in the world to have undergone an extensive cradle to grave Life Cycle Assessment (LCA), in accordance with the European wide standard EN 15804:2019.

Its game changing, patent-pending design offers unrivalled efficiencies meaning every project is designed to the most efficient post spacings resulting in a compliant and cost-effective design. Choose to contract hire or purchase EnviroHoard™ with our guaranteed buyback.

SYSTEM FEATURES

Fully Adjustable Post

Stackable Connected Blocks

Fixing Free Rails

EnviroHoard GOLIATH™

UK's First Net Zero Verified Hoarding System

## WATCH PRODUCT VIDEO

CLICK TO PLAY

We are so confident in our patent-pending EnviroHoard™ range that we have created a series of product videos to showcase each systems unique design features.
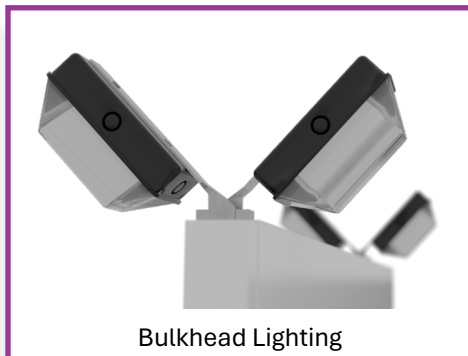

Sustainability is at the heart of the system, ~70% reduced carbon embodiment compared to traditional timber hoarding along with its unrivalled operational and commercial benefits are why it is the industry's leading proprietary system.

Pictures are good, but nothing beats watching a video, click to watch 40 seconds of next generation temporary hoarding.
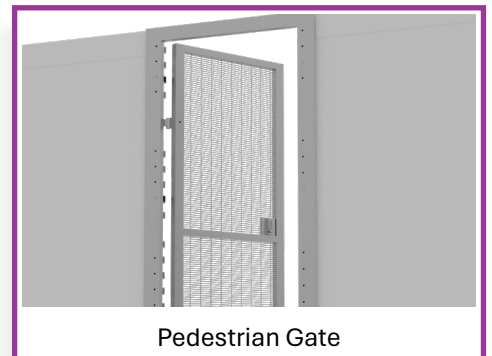

SYSTEM ENHANCEMENTS
